

18 SEP 1969

MEMORANDUM FOR: Director of Security

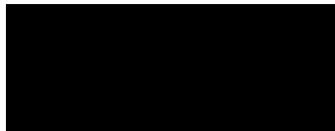

SUBJECT : Office of Security Statistical Report  
for AUGUST 1969

1. The attached tables reflect some of the activities of certain components of the Office of Security during August 1969.

2. The statistics in the tables are compiled by the component concerned and refer to the current month.

3. The overall processing time for an applicant case continues to rise, increasing from 82 days in July to 87 days in August. For the current month the breakdown in processing reflects that on an average each case required 76 days in investigation, 4 days in SRD and 7 days in PSD.

4. The most significant factor contributing to the time rise in processing the applicant case is the sharp increase in custodial responsibilities caused by numerous defector cases in recent months.
